

PHOTO FINISH – Riverbanks Zoo

Custom shape and design to meet your exact needs.

Working closely with the Architect, TSS was chosen to design, engineer and install the new treehouse canopies at the Riverbanks Zoo in Columbia, SC. The dynamic color combinations play off the natural colors of water, earth, fire and sky and are the main focal point for the new Children's Garden and exhibits.

Tensile Structure Systems is a boutique firm specializing in the design of custom tensile fabric structures, roof systems and shade sails. Whether it be a sports facility, amphitheater or transportation hub we are dedicated to providing the highest quality, cost effective products with a customer service experience second to none. This is our commitment. This is our mission.
