

PHOTO FINISH – TRANSPORTATION HUB

Beautiful -- Night or Day

Cities looking to offer a grand entrance portal are using Tensile Structure technology for their air and rail transportation hubs. Dramatic lines and dynamic shapes complement the surrounding areas while offering a futuristic look.

Tensile Structure Systems is a boutique firm specializing in the design of custom tensile fabric structures, roof systems and shade sails. Whether it be a sports facility, amphitheater or transportation hub we are dedicated to providing the highest quality, cost effective products with a customer service experience second to none. This is our commitment. This is
